Real wood wall panel  
Ready to start right away

**mywoodwall™**

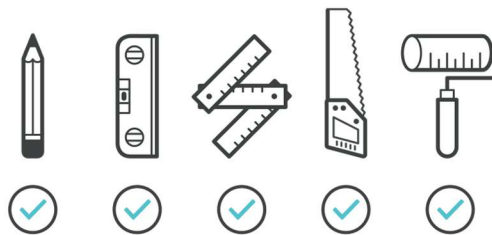

Bring Nature into your Life!

## mywoodwall™ It's that easy

Transform your home in a flash! Remove adhesive strip. Press panel to the wall. Done!

- 1 Draw reference line on the wall.
- 2 Peel off adhesive strip and glue panel to the wall. *If required, adjust panel to the desired measure.*
- 3 Press panel to the wall. Done!  
*Tip: use a pickup roller.*

By the way: **mywoodwall™**-wall panels are self-adhesive and made of featherlight special wood. A single panel weighs hardly more than a chocolate bar.

Ex work equipped with an extra strong double-sided adhesive tape, **mywoodwall™**-wall panels firmly stick to the wall.

For enhanced adhesion and to fix end pieces, we recommend double-sided universal tape by tesa®.

## Sustainability included

There's more behind **mywoodwall™** than excellent FSC®-certified wood and a great DIY idea for design enthusiasts. **mywoodwall™** stands for natural residential design and responsibility towards human beings and nature.

- ♥ Raw materials FSC®-certified and emission-free
- ♥ Wood from sustainably cultivated plantations in Java – consistent preservation of the rainforest
- ♥ **mywoodwall™** actively improves the livelihoods of Indonesian peasants.
- ♥ For each box of **mywoodwall™**-panels you purchase, we support "1 Million Trees", a non-profit initiative of Fairventures Worldwide.
